Your End-to-End Digital Business Lending Solution

MeridianLink[®] Business is a cloud-based, comprehensive business lending solution that can easily be tailored to your institution's credit parameters. Create a simple, fully digital application process with features including state-of-the-art prospecting tools, AI/machine learning, automated decisioning, analytics, closing, and core boarding.

Rapid Launch

Be in-market offering 100% digital business loans in 90 days or less

End-To-End Solution

A powerful prospecting, application, & decisioning engine at your fingertips

Profitably Deployed Deposits

Higher margin assets with strong customer value potential

Fully Digital Drives More Business Loans

MeridianLink Business is an award-winning solution and ICBA Preferred Service Provider trusted by community banks nationwide to deliver a fantastic end-to-end user experience and streamline team workflows.

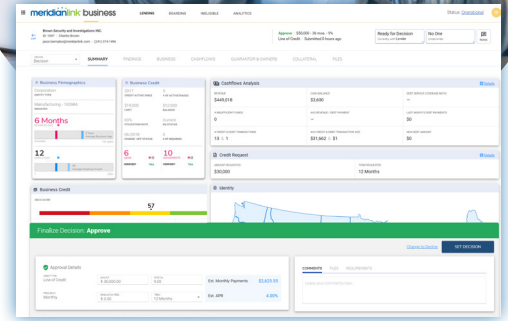

Simplified User Experience

Enjoy a simple, end-to-end origination process with customizable digital applications designed to fit your existing brand. Check loan statuses, create workflow automations, and more to help you process and fund more applications, boosting your overall loan portfolio and ensuring a positive, transparent customer experience.

Streamlined Workflows

MeridianLink Business helps staff easily manage processes and accounts with a range of valuable features: Use advanced analytics to uncover new borrower insights for your sales funnel; streamline funding applications through our branded app and real-time decisioning tools; and capture documents and make offers digitally.
