Explore the Venminder Platform

Built to seamlessly combine technology with the human touch so you can drive consistency, reduce the overall due diligence workload, and gain valuable insight into the risks your third parties are posing to your organization.

Venminder Third-Party Risk Software

Gain a 360-degree view of third-party risk by using our SaaS software to centralize, track, automate, assess, and report on your vendors.

Dedicated Workspaces:
Onboarding, Ongoing, and Offboarding

Third-Party Risk Management Activities:
Risk assessments (inherent & residual), questionnaires (SIG, NIST, HIPAA, FTC Safeguards Rule, HECVAT, and more), oversight management, issue management, SLA management, continuous monitoring, and more

Cross-Functional Communication:
Tasks, alerts, notifications, contracts, spend analysis, and more

Govern Your Program:
Oversight automation, configurable & detailed reporting, advanced workflows, business unit permissions

Includes: Unlimited Users / Vendors / Contracts / Questionnaires

Control Assessments

Get completed risk assessments on your vendor's controls.

- SOC (System and Organization Controls)
- Business Continuity & Disaster Recovery
- Financial Health
- Point-in-Time Cybersecurity
- Data Protection
- Information Security & Privacy
- Contract Compliance
- Vendor Vetting
- SIG Lite
- CAIQ

Our experts review all documentation and questionnaires provided by the vendor and you get a report for each control you wanted assessed with risk ratings, indicators, and recommendations.

Ongoing Monitoring with Venmonitor™

Utilize risk intelligence data in a single pane of glass to reduce the risk of disruption to product or service delivery, impact to customers, and your reputation due to cybersecurity risks, data breaches, privacy issues, and other critical issues.

- Cybersecurity
- Business Health & Credit Risk
- Privacy
- Adverse Media
- ESG (Environmental, Social, and Governance)
- Know Your Vendor

Available as:

Point in Time:
On-demand view to highlight risks during pre-contract evaluations and vetting.

Daily Refresh:
Continuous refresh of data on your existing active vendors so you know when things change.

Managed Services

Increase your organization's throughput and reduce the need for your own internal staff with Venminder's outsourcing capabilities.

Document Collection:
We can collect and maintain the most current records of your vendor's documentation on your behalf.

Policy and Program Advisory:
Receive expert guidance on your policy or program documents to ensure that they meet regulations and today's best practices.

Virtual Vendor Management Office:
Create your own customized outsourced services package to assist you with third-party risk management efforts.
