VENDOR

Intelligent vendor management software that automates the full vendor lifecycle, from onboarding through ongoing oversight, backed by expert-built content and risk models that keep you exam-ready.

VERIFY

Internal audit management software that automates the audit process, including digital workpapers, risk-based templates, and automated workflows—reducing risk, time, and cost while keeping your organization exam-ready.

VE **MINDER**

Third-party risk management platform combining vendor management software, expert-performed control assessments, and continuous monitoring, so you can scale sophisticated vendor oversight without expanding your team.

FINDINGS

Centralized findings management software that gives your financial organization real-time visibility into every audit and exam finding, with automated accountability and board-ready reporting, so findings don't fall through the cracks.

COMPLY

A secure, centralized CMS for continuous compliance and exam readiness, featuring Nquiry Ntelligence — your AI-powered, cited, and auditable compliance partner— and Complaint Ntelligence, which helps identify regulatory risk before issues escalate.

CYBER

A cybersecurity assessment tool powered by the industry-leading CRI Profile and NCUA ACET, so your evaluations meet examiner expectations while surfacing insights that strengthen your defenses.

RISK

Risk management software with a pre-built library of risk and control assessments, KRI/KPI tracking, and dynamic heat maps, so you can manage enterprise-wide risk without adding headcount.

CONNECT

A secure, user-friendly platform that helps keep your employees engaged and informed across your organization.

LENDING

A fair lending compliance suite that turns raw data into answers, with the transmittal, analytics, and regression solutions you need across HMDA, CRA, 1071, and non-HMDA lending.

BOARDPORTAL

A secure board portal that enables directors to coordinate meetings, share documents, and track action items while maintaining confidential governance communications.

CONTINUITY

Business continuity management platform that helps you build recovery plans that work under pressure and stand up to regulatory scrutiny, with mobile access that puts plans, alerts, and response tools wherever disruption strikes.
